SAFETY DATA SHEET

Company Identification

Thep Watana Co., Ltd. Address: 382 Bangpoo Industrial Estate.

Sukhumvit Road, Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66(0)-2721-3510;

Fax: +66(0)-2721-3515

1. CHEMICAL IDENTIFICATION

Product Identification

Product name: Imidacloprid 70% WG

Product use: Insecticide

Relevant identified uses of the substance/mixture and uses advised against:

Commonly used in both agriculture and arboriculture to protect crops, birch, maple, oak and hemlock.

2. HAZARD IDENTIFICATION

Route(s) of Entry:

Inhalation; Skin Contact; Skin Absorption

Human Health Effects and Symptoms of overexposure:

Acute effects of exposure,

No specific symptoms of acute overexposure are known to occur in humans. Animal studies have shown that this material is mildly toxic by the oral and dermal routes. It is minimally irritating to the conjunctiva of the eye but the irritation is reversible within 72 hours. It is not a dermal irritant or a dermal sensitizer.

Chronic effects of exposure,

No specific symptoms of chronic overexposure are known to occur in humans.

Carcinogenicity,

This product is not listed by NTP, IARC or regulated as a carcinogen by OSHA.

Medical conditions aggravated by exposure,

No specific medical conditions are known which may be aggravated by exposure to this product.

Fax: +66-2721-3515

3. COMPOSITION/INFORMATION ON INGREDIENT

Chemical name: (E)-1-(6-chloro-3-pyridinylmethyl)-N-nitroimidazolidin-2-ylideneamine

Common name: Imidacloprid (proposed to ISO)

Chemical class: Chloronicotinyl

CAS Number: 138261-41-3

Ingredients and composition:

Component	CAS No.	% W/V
Active ingredient - Imidacloprid	138261-41-3	70
Inert ingredient	-	30

Empirical formula: $C_9H_{10}ClN_5O_2$

Molecular mass: 255.7

4. FIRST AID MEASURES

Description of first aid measures

In case of eyes contact:

Hold eyelids open and flush with copious amounts of water for 15 minutes. Call a physician if irritation persists or develops after flushing.

In case of skin contact:

Remove contaminated clothing. Wash skin with soap and water. Get medical attention if irritation persists. If signs of intoxication (poisoning) occur, get medical attention immediately.

In case of Inhalation:

First, remove victim to fresh air or uncontaminated area. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention as soon as possible.

In case of Ingestion:

If ingestion is suspected, call a physician or poison control center. Drink one or two glasses of water and induce vomiting by touching back of throat with finger, or, if available, by administering syrup of ipecac. If syrup of ipecac is available, administer 1 tablespoonful (15 mL) of syrup of ipecac followed by 1 to 2 glasses of water. If vomiting does not occur within

Thep Watana Co., Ltd.

Phone: +66-2721-3510 Fax: +66-2721-3515

20 minutes, repeat the dose once. Do not induce vomiting or give anything by mouth to an unconscious person.

Note to Physician:

Treat symptomatically

Antidotes:

None

5. FIRE FIGHTING MEASURES

Flash point: Not available

Flammable limits:

Upper explosive limit (UEL): Not applicable

Lower explosive limit (LEL): Not applicable

Suitable Extinguishing Media: Water, Carbon Dioxide, Dry Chemical, Foam

Special Fire Fighting Procedures:

Keep out of smoke, cool exposed containers with water spray. Fight fire from upwind position.

Use self-contained breathing equipment. Contain run-off by diking to prevent entry into sewers or waterways. Equipment or materials involved in pesticide fires may become contaminated.

6. ACCIDENTAL RELEASE MEASURES (SPILLAGE)

Spill of Leak Procedures:

Isolate area and keep unauthorized people away. Do not walk through spilled material. Avoid breathing vapors and skin contact. Remove sources of ignition if combustible or flammable vapors may be present and ventilate area. Wear proper protective equipment. Dike contaminated area with absorbent granules, soil, sand, etc. If large spill, material should be recovered. Small spills can be absorbed with absorbent granules, spill control pads, or any absorbent material. Carefully sweep up absorbed spilled material. Place in covered container for reuse or disposal. Scrub contaminated area with soap and water. Use dry absorbent material such as clay granules to absorb and collect wash solution for proper disposal. Contaminated soil may have to be removed and disposed. Do not allow material to enter streams, sewers, or other waterways or contact vegetation.

7. HANDLING AND STORAGE

Precautions to be taken in handling and storage:

Store in an area designated specifically for pesticide. Do not store near any material intended for use or consumption by humans or animals. Store a cool, dry area. Do not store in a direct sunlight.

Thep Watana Co., Ltd.

382 Bangpoo Industrial Estate Sukhumvit Rd., Preaksa, Muang District, Samutprakarn 10280, THAILAND

Phone: +66-2721-3510

Fax: +66-2721-3515

Protect from freezing temperatures. Do not contaminate water, food, or feed by storage, disposal, or by cleaning of equipment. Do not reuse empty container. Open dumping is prohibited.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Personal Protective Equipment

Eyes Protection Requirements:

Splash-proof goggles should be used to prevent liquid splashes from getting into the eyes.

Skin Protection Requirements:

Wear long sleeves and trousers to prevent skin contact.

Hand Protection Requirements:

The use of chemical-resistant gloves to prevent skin contact is recommended as good practice.

Respirator Requirements:

Under normal handling conditions, no respiratory protection is needed; however, when potential exposure to this product is excessive, wear a respirator approved for dusts and mists or for pesticides.

Ventilation Requirements:

Control exposure levels through the use of general and local exhaust ventilation where needed.

Additional protective measures:

Clean water should be available for washing in case of eye or skin contamination. Educate and train employees in safe use of the product. Follow all label instructions.

Launder clothing after use. Wash thoroughly after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical stage:	Granule
Color:	Light yellow
Odor:	Odorless
Specific gravity:	Not available
Boiling point:	Not available
Melting/ Freezing Point:	Not available
Solubility in water:	100%
pH:	Not available
Vapor pressure:	Negligence

Phone: +66-2721-3510

Fax: +66-2721-3515

10. STABILITY AND REACTIVITY

Stability:	This is a stable material.
Hazardous polymerization:	Will not occur.
Incompatibilities:	None known
Stability Conditions:	Strong exothermal reaction above 200 °C
Decomposition Products:	Proposed: HCl, HCN, CO, NOx

11. TOXICOLOGICAL INFORMATION

Information on Acute toxicity for end product

Oral (rat):	LD50 > 2,000 mg/kg
Dermal (rabbit):	LD50 > 2,000 mg/kg
Inhalation (rat):	LC50 (4h) > 2.59 mg/L
Skin irritation (rabbit):	Mild skin irritant
Eye irritation (rabbit):	Mild eye irritant
Sensitization:	Not a skin sensitizer in LLNA method

Other

Not mutagenic or teratogenic

12. ECOLOGICAL INFORMATION

Toxicity

Data referred to the mixture, Imidacloprid:

Fish – Acute toxicity:

Rainbow trout,

LC50 (96 h): 211 mg/L

Golden Orfe,

LC50 (96 h): 237 mg/L

Birds – Acute toxicity:

Japanese quail,

LD50: 31 mg/kg

Bobwhite quail,

LD50: 152 mg/kg

LC50 (5 days): > 2,225 mg/kg

Mallard ducks,

LC50 (5 days): > 5,000 mg/kg

Phone: +66-2721-3510

Fax: +66-2721-3515

Arthropod – Acute toxicity:

Honey bee,

Harmful to honeybees by direct contact, but no problems expected when not sprayed into flowering crop or when used as seed treatment.

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method:

Follow container label instructions for disposal of wastes generated during use in compliance with the product label. In other situations, bury in an approved landfill or burn in an incinerator approved for pesticide destruction. Do not reuse container.

14. TRANSPORT INFORMATION

The data provided in this section is for information only. Please apply the appropriate regulations to properly classify your shipment for transportation.

Shipping Name:	Imidacloprid 70% WG
UN No:	3077
Dangerous Goods Class:	9
Packaging Group:	III

15. REGULATORY INFORMATION

TSCA Inventory – section 3 (2)(B)(ii) when used as a pesticide.

This product is exempt from TSCA Regulation under FIFRA

CERCLA Reportable Quantity

No components listed

SARA Title III Rules - section 302 – Extremely Hazardous Substances

None

SARA Title III Rules - section 311/312 – Hazard Categories

Immediate Health Hazard

SARA Title III Rules - section 313 – Toxic Chemicals

None

RCRA Status

If discarded in its purchased form, this product would not be a hazardous waste either by listing or by characteristic. However, under RCRA, it is the responsibility of the product user to determine at the time of disposal, whether a material containing the product or derived from the product should be classified as a hazardous waste. (40 CFR 261.20-24)

16. OTHER INFORMATION

Revise Date: July 8, 2010

This MSDS summarizes our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this MSDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.
